

Theme Settings for the Bytes Custom Stock Messages App

This document provides the necessary information about the theme settings required to enable the Bytes Custom Stock Messages App on your Product Detail page.

Steps for app block (Shopify 2.0 theme)

Step 1

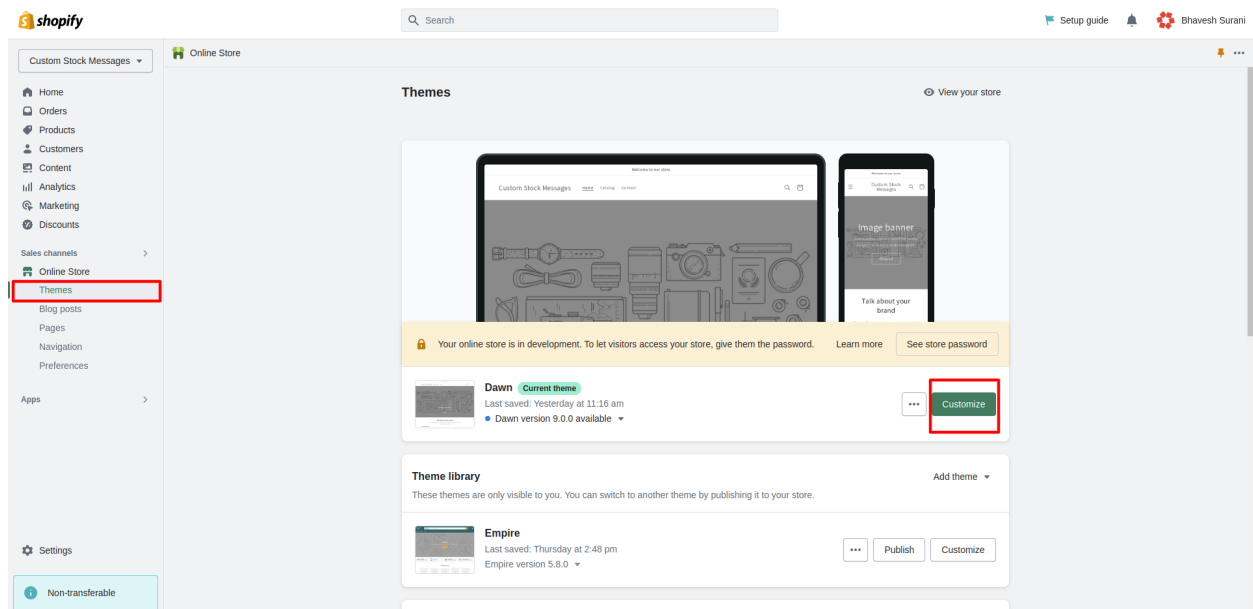

Login into your store as an Admin user.

Step 2

Click on the *“Themes”* link under the Online Store option from the left sidebar. You will be able to see the list of themes as well as the current Live theme of your store.

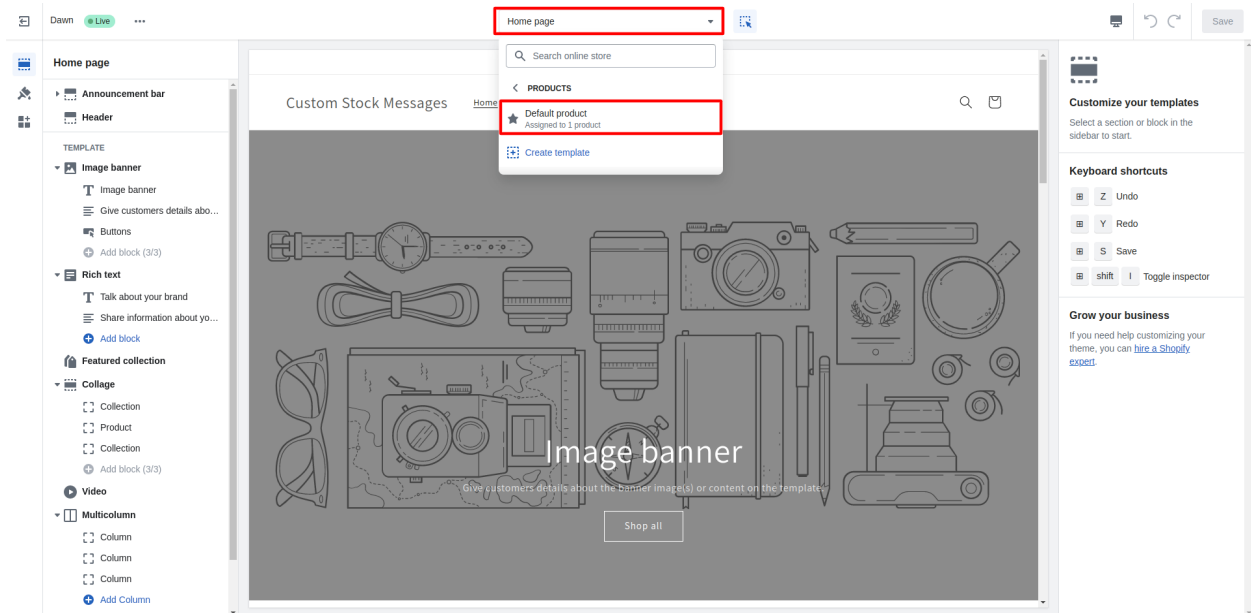

Step 3

At this point, you can proceed to make changes to the Live theme. Click on the *“Customize”* button. It will redirect you to the theme-related settings page.

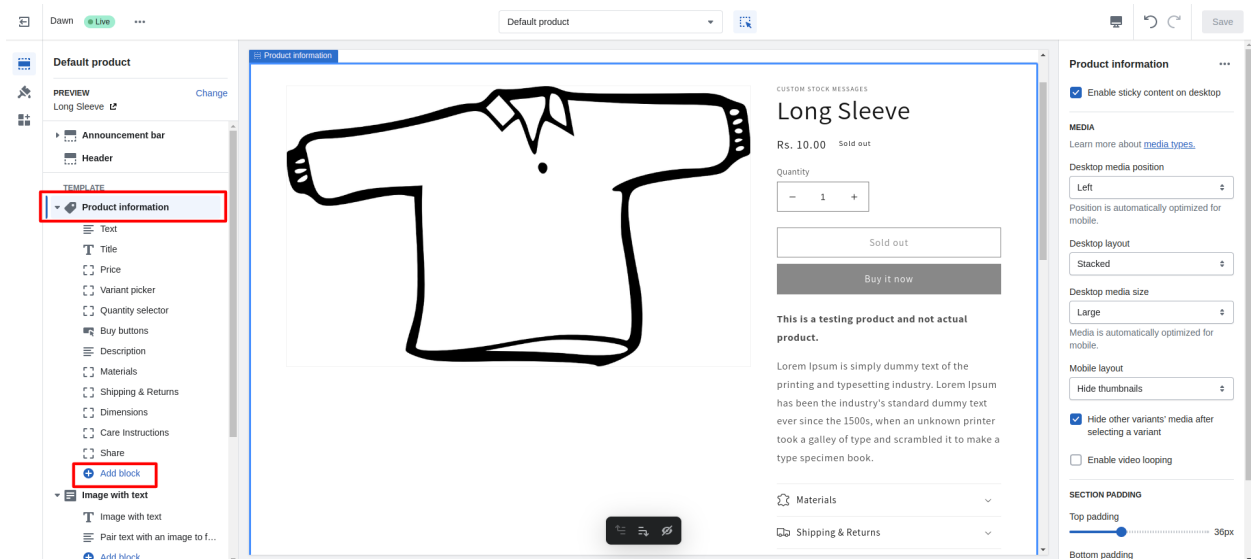

Step 4

Now select the *"Default product"* page option from the top middle select box as shown below. It will open the product detail page settings.

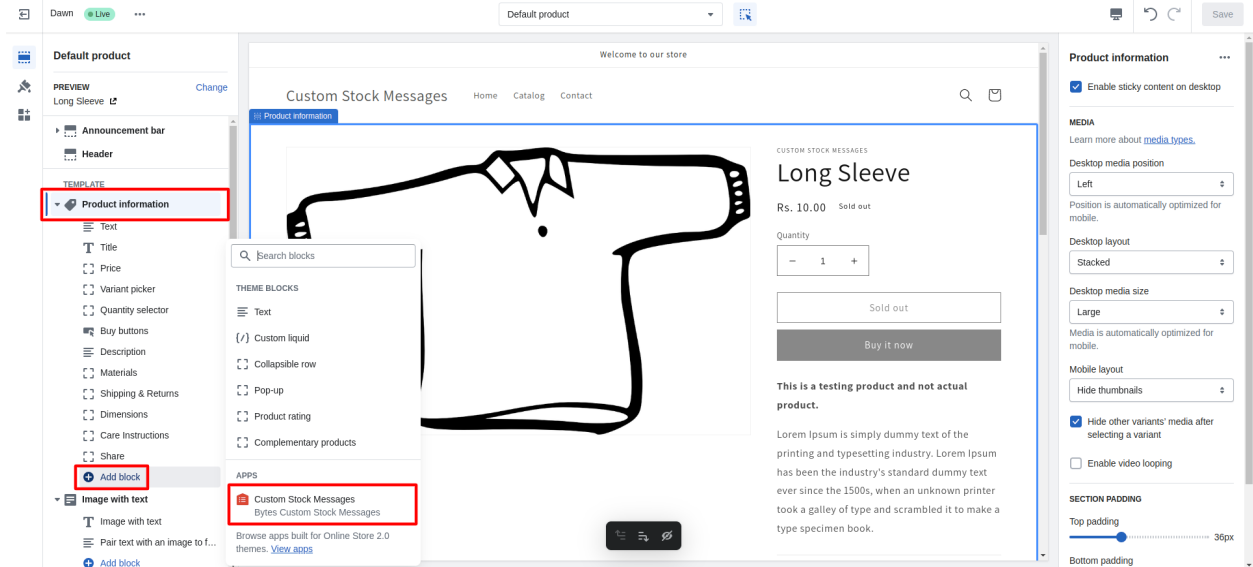

Step 5

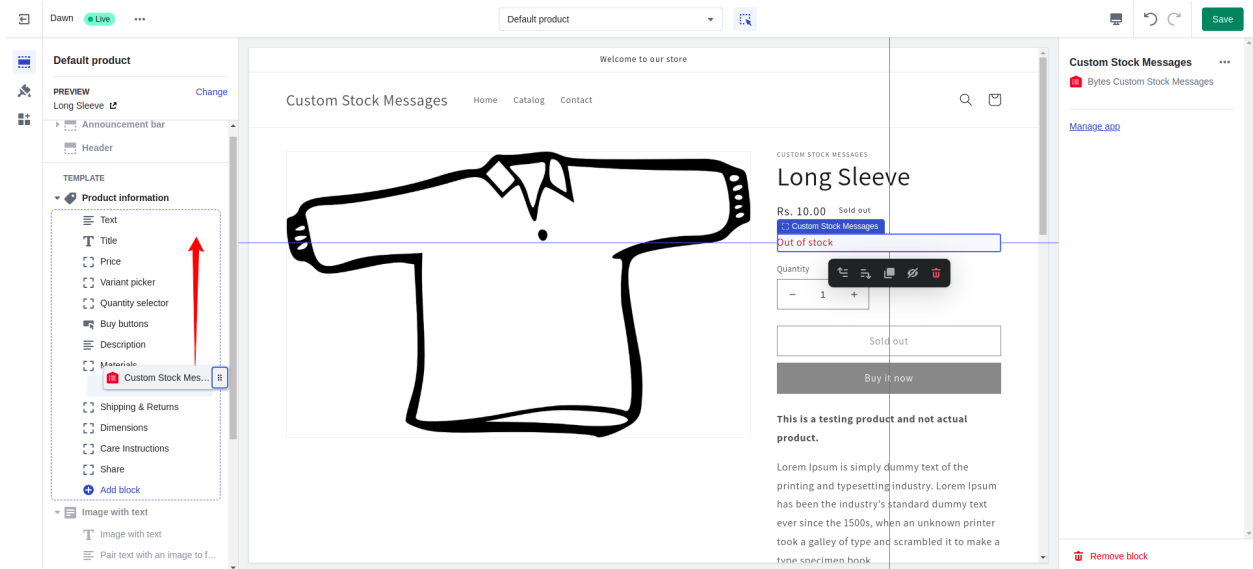

Click on the *"Add block"* link under the *"Product information"* option. It will open different options to add in this section like theme blocks, Apps, etc...

You will see the [Bytes Custom Stock Messages](#) App under the Apps section. Click on it to select and press the **“Save”** button from the top right corner.

You can change the position of the section where the App will display the message by simply dragging the [Bytes Custom Stock Messages](#) option as shown below:

After changing the position, you can press the **“Save”** button from the top right corner and you’re done with the theme settings required for the [Bytes Custom Stock Messages App](#).

Steps for a vintage theme (that does not support app blocks)

Step 1

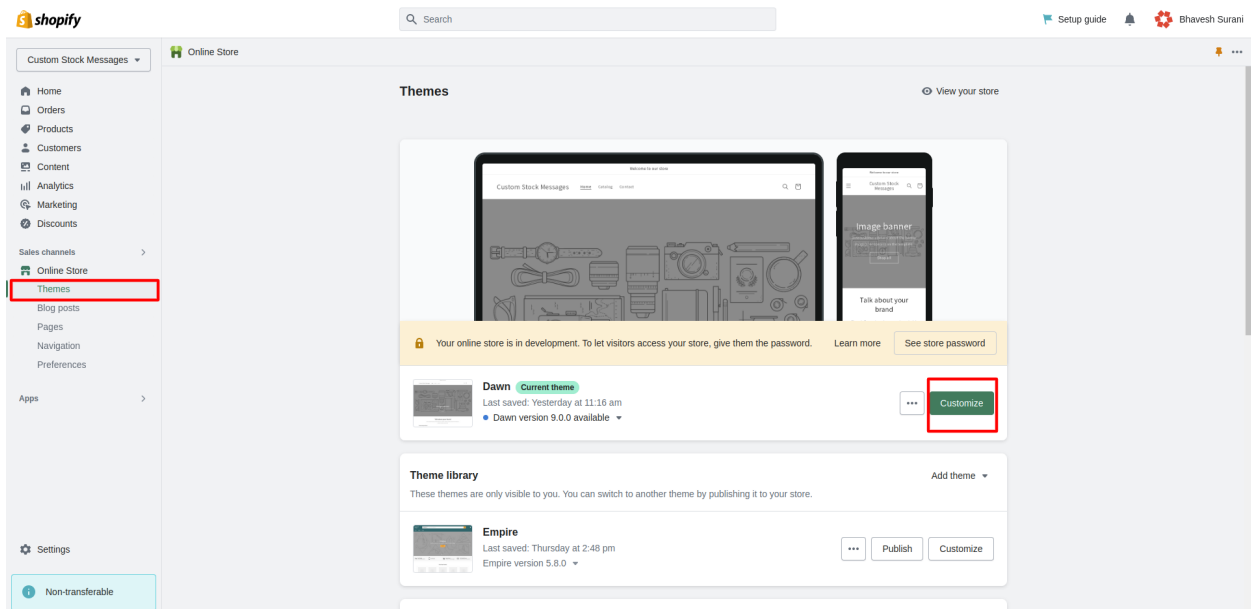

Login into your store as an Admin user.

Step 2

Click on the *“Themes”* link under the Online Store option from the left sidebar. You will be able to see the list of themes as well as the current Live theme of your store.

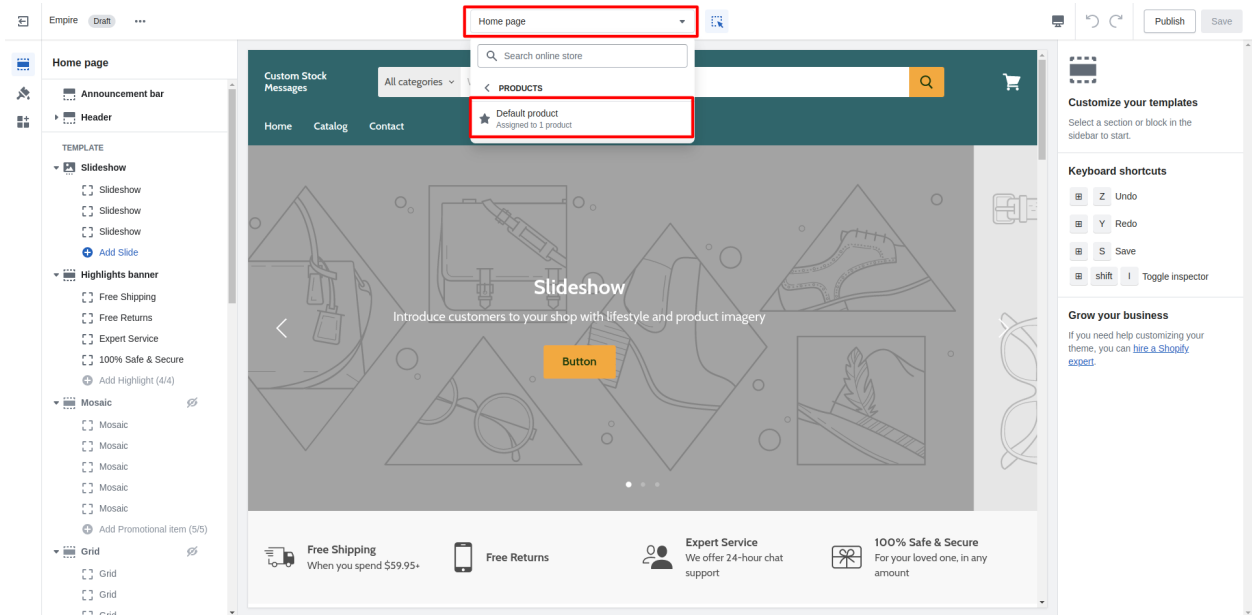

Step 3

At this point, you can proceed to make changes to the Live theme. Click on the *“Customize”* button. It will redirect you to the theme-related settings page.

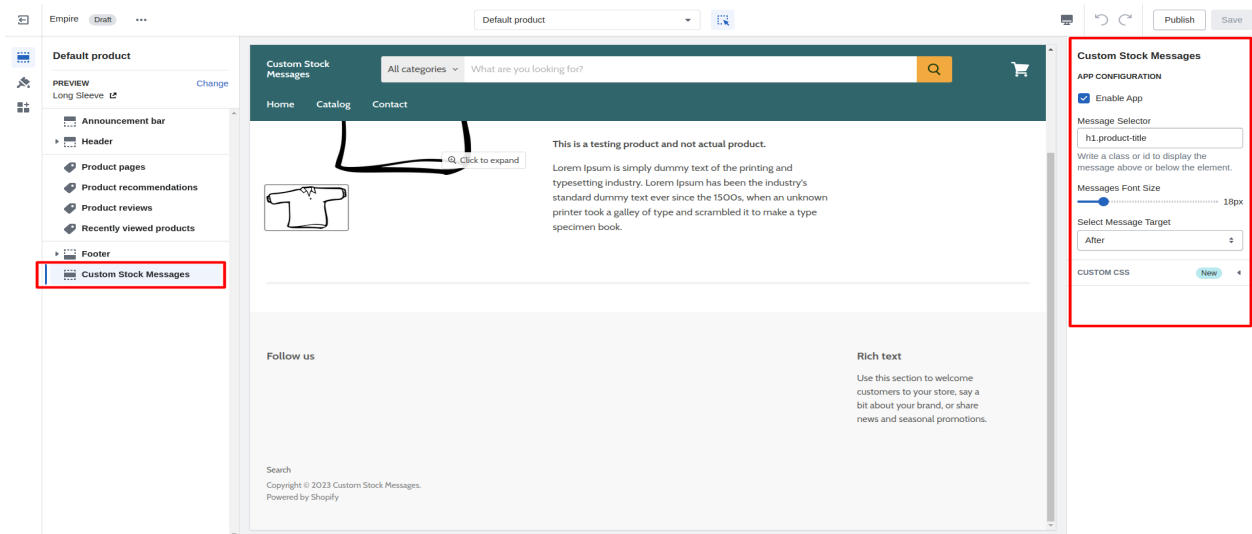

Step 4

Now select the *"Default product"* page option from the top middle select box as shown below. It will open the product detail page settings.

Step 5

Click on the *"Custom Stock Message"* section located at the bottom of the *"Product"* section.

In-App configuration:

- **Enable App:** Enable or disable the app by using the checkbox.
- **Message Selector:** Assign a class or id to display the message.
- **Message Font Size:** Customize the font size according to specific requirements.
- **Select Message Target:** Choose either "above" or "below" to render the message on the targeted element.

Once you have made the desired changes to the configuration, simply click on the **"Save"** button located at the top-right corner of the screen. With that, you have completed the theme settings required for the **Bytes Custom Stock Messages App**.

The screenshot displays the Bytes Custom Stock Messages App interface. At the top, there is a dark teal header with the text "Custom Stock Messages" and a search bar containing "All categories" and "What are you looking for?". Below the header, there are navigation links for "Home", "Catalog", and "Contact". The main content area shows a product page for "Long Sleeve" shirts. The product is marked as "Out of stock" and priced at "Rs. 10.00". A "Quantity" dropdown is set to "1", and a "Sold out" button is visible. Below the product name, there is a "Share this:" section with social media icons for Facebook, Twitter, LinkedIn, and Pinterest. The product description includes a note: "This is a testing product and not actual product." and a paragraph of Lorem Ipsum text. A "Click to expand" button is located below the product image. At the bottom of the page, there is a "Follow us" section and a "Rich text" section with a placeholder for a welcome message. The footer contains the text "You're previewing: Empire" and "Last saved on Apr 13, 2:48 pm IST".
